

Manager Update

Dear Lorocco Community,

The team at Lorocco would like this opportunity to wish you a safe and happy Easter Break.

Kindest Regards,
Manuja Kandel

Clinical update

Dear Families,

As we navigate through these challenging times, I would like to take a moment to remind everyone of the importance of wearing personal protective equipment (PPE) ' to prevent the spread of infection. It is crucial that we all adhere to wearing masks, gloves, and any other necessary PPE when in the designated wing in our facility.

By doing so, we not only protect ourselves but also help protect those around us. Your commitment to following these guidelines is greatly appreciated and plays a significant role in keeping our home safe and healthy. Let's continue to work together to prioritize safety and well-being.

Thank you for your cooperation and dedication to maintaining a safe environment for all.

Warm regards,
Herlene

Care Coordinator

Training update

Infection Control Month

During the month of March Lorocco staff have participated in education regarding infection control.

This has become particularly important due to recent surges in Covid and gastro cases in the community. Staff have been shown how to don and doff PPE to minimise cross contamination as well as the importance of hand hygiene.

Glitter bug potion has been used as a tool to educate how a poorly done hand wash doesn't remove all germs!

Victoria Wierstra
Training Facilitator

Kind Regards,

Victoria Wierstra

Lifestyle Update

The DECK GARDENING CLUB

We are pleased to introduce our garden of relaxation where all other residents and families can come and enjoy the harvest.

“ The Deck Garden Club “was specifically designed to provide those sensory elements allowing residents to feel, touch and smell the flowers, herbs and soil. This garden will provide therapeutic activities and create a daily continuous hobby, in our Special Care Unit. This will not only help our residents but for all Family members to engage and visit the garden, utilising the garden space for some rest and relaxation with their loved ones.

The purpose of our garden is to create a safe and meaningful space, that is calming and relaxing, where everyone can escape for some quieter time. This also increases mobility, for our residents, by encouraging residents to walk outside and water the plants whilst exposing themselves to vitamin D.

With some careful planning and ensuring all plants are non-toxic and irritant-free from things like thorns and prickles. The Deck Garden club has a variety of flowers, some donated by Residents' families. Our Vegetables. We currently have a selection of brown and red onions, Kale, and lettuce, tomatoes.

Our Herbs are rosemary and basil.

Edible flowers - will be grown (only to be used by our Head Chef for the kitchen)

Through talking to families and residents it was vital to ensure that the plants in the garden were the resident's choice which is what makes this garden special, through their childhood memories and feedback on what they remembered of what their parents loved to grow in the past. We now have a handful of very proactive resident members, who actively ensure the plants are watered daily and cultivated.

I'm very excited about this project as it will be actively run by our very residents, which in turn involves families during their visits to use and enjoy the harvest or simply take in the scenery. We look forward to seeing more visitors and residents using this space every day.

First session of Connecting Through Art on the 8th of March

The introduction to Art Therapy to Lorocco is Bring families together through art. The whole concept around this for us to start a journey of creating memories, telling our stories through colour.

The paintings will be used as post cards for families to send through to their family members to reconnect or to simply say hello.

My aim is to create a connecting web so more families come and visit their loved ones. Hope to see at the sessions in April.

Amorita Kluyts

Servizi Update

Hello from Servizi!

What a lovely few weeks we have had playing games, going on walks, and enjoying coffee shop dates.

Amorita got beaten a few times with her own game!!! Herewith are some of the residents who got the hang of Domino's – some of our residents are huge in any game involving numbers.

We have noticed the more stimulation and one-on-one visits to our residents, the happier they are and the more they adapt to their new environment.

We look forward to April and our Food and Fun event to Cleveland Courthouse Restaurant.

If you would like more information on our companion services or monthly outings, please contact Amorita on 0482 163 450 or email concierge.LO@vacenti.com.au.

The Servizi team look forward to you joining us.

Kind Regards,
Amorita

Servizi Active Minds

Servizi Services

Servizi Premium Services is a user-pay service that allows for further enhanced normality and choice. The benefits of taking advantage of the extra services include building confidence and relationships with peers. It makes new residents feel at home and gives access to normal activities residents would have enjoyed at home. Speak with your concierge today about signing on to Servizi Premium Services.

Services include massage therapy to stimulate muscles and relieve pain.

Beauty treatments such as a haircut or new hairstyle and having nails painted.

Active minds apply the appropriate stimuli to achieve desired outcomes and are based on non-drug therapy approach known as Cognitive Stimulation Therapy (CST).

Daily coffee and cake encourage a trip to the cafe to socialise and connect with fellow residents and staff.

Special events such as a theatre trip, fishing trip or sports event can be organised and some residents have enjoyed a day at the movies.

Companion Services available as a daily fee or one-time experience are a priceless service benefitting residents and their wellbeing is the focus, precious one-on-one time assists with mental and emotional health and supports with maintaining independence and normality. Cultivating friendships and facilitate the transition into residential aged care.

Foxtel channels offered allow residents to rediscover old favourite TV shows which bring back wonderful memories or find new movies and content to engage with.

Outings which residents would have experienced at home in their normal social settings. Feedback include expressing love of spending time with other residents and how it made their day.
